You are to write a summary of a newspaper, magazine(article), or news program current event that must be no less than 1 paragraph long. If you write about something you saw on a television news program, I want at least 2 paragraphs of information. Each article must answer all of the 5 important questions that go along with a good summary: *Who? What? Where? When? Why? How?* If I do not see this type of questioning being done, I will not count the article.

*** These articles are due on*

1. Who is the news story about?
2. What is the news story about?
3. Where is the news story taking place?
4. When has the news story taken place?
5. Why is the news story being written or reported?
